Forecast for Monday 05 Jun 2023

Weather: Clear skies at first but low cloud filtering in from the north and east through the early hours. The low cloud in the east will slowly burn off through the morning to leave mostly sunny conditions into the afternoon, with some patchy high cloud possible. Low cloud making a return late evening.

Chance of cloud-free hill tops above 800m: 80% in the west, 60% in the east, improving to 90% across the region by late morning. 70% in the east late evening.

Low Cloud and visibility: Low cloud, base 500-700m, in the north and east overnight and to start on Monday, slowly clearing. Low cloud, base 600-800m, in the east late evening. Visibility good or very good out with cloud.

Met Office Aberdeen Meteorologist's View
Nothing to add.

Forecast for Tuesday 06 Jun 2023
Weather: Low cloud again to start the day for all but the far west but this burning off by around midday to leave plenty of sunny spells. Perhaps a little low cloud in the east again late evening but this less widespread than previous days.

Maximum wind: Light and variable.

Chance of cloud-free hill tops above 800m: 40% at first but 80% in the far west, improving to 90% into the afternoon. 70% in the east late evening.

Low Cloud and visibility: Low cloud, base 500-700m, at first, lifting then clearing through the morning. Scattered low cloud, base 700-900m, in east late evening. Visibility good or very good away from cloud.

Temperature: **Glens:** Plus 10 rising to plus 20 Celsius.
At 800m: Plus 6 rising to plus 14 Celsius.
Freezing level: Above summits.
